Azimjon Mayusupov

Web Reverse Engineer | Backend Developer

Худжанд, Согдийская область, Таджикистан

Общие сведения

As a dedicated Backend Developer with over 2 years of experience in the software development industry, I specialize in building robust and scalable server-side applications using Python, Django, and Django REST Framework (DRF). My expertise extends to database design and optimization with PostgreSQL, ensuring high performance and reliability for complex systems.

In addition to my academic credentials, I have a successful track record as a Freelance Developer on the Kwork platform. During this time, I have:

- Developed Automation Scripts: Created over 100 Python scripts to streamline and automate repetitive tasks, enhancing client productivity by up to 90%.
- Designed Telegram Bots: Built and deployed interactive Telegram bots using aiogram, facilitating user engagement and automating customer support for various businesses.
- Built Web Applications: Developed and maintained more than 10 web applications and RESTful APIs with Django REST Framework, providing scalable and maintainable backend solutions tailored to diverse client needs.
- Implemented Diverse Solutions: Delivered customized solutions across different industries, demonstrating versatility and a strong ability to adapt to unique project requirements.

Key Skills:

- Programming Languages: Python
- Frameworks: Django, Django REST Framework (DRF), aiogram
- Databases: PostgreSQL
- Tools & Technologies: Git, Docker, RESTful API Design
- Other Skills: Automation scripting, performance optimization, agile methodologies, unit testing

I am passionate about leveraging technology to create efficient and innovative solutions that drive business success. I thrive in collaborative environments and am committed to continuous learning and professional growth. Whether working independently as a freelancer or as part of a dynamic team, I aim to deliver high-quality results that exceed client expectations.

Feel free to connect with me to discuss potential collaborations, opportunities, or to learn more about my work.

Опыт работы

MrScraper
Senior Reverse Engineer
мая 2025 - Present (7 месяцев)

Customized project
Software Engineer
декабря 2023 - Present (2 года)

Project: Visa center booking automation system.

- Fully developed the architecture of the backend system from scratch
- Implemented 3 independent backend services for different stages of parsing and booking.
- Configured automation for more than 20 countries
- API integration and scraping of complex secure sites
- Error handling, logging, scalability

IT-RUN
Back End Developer
июля 2023 - мая 2024 (11 месяцев)
Таджикистан

- Developing and maintaining server-side web applications: Utilized Python, Django, and Django REST Framework (DRF) to build and maintain application functionality, ensuring high performance and scalability.
- Database Work: Designed, developed, and optimized databases on PostgreSQL, ensuring high system performance and reliability.

- API Implementation: Created interfaces for efficient communication between frontend and backend, ensuring reliable data exchange and integration of various system components.

Kwork

Freelance Developer

января 2022 - декабря 2023 (2 года)

Tajikistan

- Developed Automation Scripts: Created Python-based scripts to automate repetitive tasks, improving efficiency and reducing manual effort for clients.
- Designed Telegram Bots: Built interactive Telegram bots using the aiogram framework, enabling enhanced user engagement and streamlined communication.
- Built Web Applications: Developed robust and scalable websites and web services with Django REST Framework, ensuring seamless backend performance and integration.
- Implemented Diverse Solutions: Delivered a variety of custom projects, showcasing adaptability and expertise in multiple technologies and frameworks to meet unique client needs.

Образование

ITMO University

Bachelor's degree, Computer Software Engineering · (августа 2025)

Институт вычислительной математики и информационных
технологий

Бакалавр, Разработка программного обеспечения · (сентября
2024 - января 2025)
